

Topic here

Date / Subject How to take Cornell notes youtube video by Jennifer Desrochers (based on captions because I was working in the classroom and did not want to disturb my classmates)

2018-08-16

Sid

Date

Name

Key Points

Key points

Notes

- Important note taking method

better for tests, quizzes

skip the teacher ideas

Draw and explain here!

- off center I leaving room to write

leave room at top and bottom topic, name and date on top

space ideas and links

drawings can help -> add ideas later

reference

dates and other ref. info can help

Left Column is the main ideas

explain in detail on the right

Right column is the detail

Main ideas, key points, important ideas or dates explain concepts here

Remember what you are doing

Key ideas on left

ideas are connected

Re-read notes on right, understand key

Right should be re-read for examples, also re-read Summary

ideas on the left. Key ideas are critical and may be on the test. Understand how they are linked.

Application vs memorization

Understand at different levels of detail instead of memorizing - Gives context to information.

Test/quiz prep

use left first and then flip over right side for detail

Summary

Takeaway and summary

Good way to make notes for material. From general topics to specific content helps with level of detail.
